1. Supplementing a previous sketch of Camp Vogelsang in the Templin (T 54/U 81) maneuver area, [REDACTED] 10 additional 25X1 wooden barracks buildings extending as far as Jagen (forest sub-division) No 271 bordered on the northern row of 16 wooden barracks located in Jagen Nos 269 and 270. In the middle of Jagen No 271 was a row of seven wooden barracks buildings, and in the middle of Jagen No 272 there are 10 additional buildings of the same type. Although not arranged in a row they were standing close together. All these buildings were of the same size and equipped as those reported previously. No troop quarters were located in the western part of Zehdenicker Forest as far as the town of Burgwall. However, a number of camping sites indicating that Soviet troops had bivouacked there during the last summer were 25X1 observed. No activities were seen in Camp Vogelsang. *
